

## Press Release

FOR IMMEDIATE RELEASE:  
February 11, 2010

### **Auto~Star Announces Compatibility with Microsoft Windows® 7/Microsoft Windows Server® 2008 R2**

MEDICINE HAT, ALBERTA – Auto~Star Compusystems Inc. today announced its point of sale application, Star~Link, is compatible with Microsoft Windows® 7/Microsoft Windows Server® 2008 R2, providing customers enhanced security, as well as innovative user interface features and reliability improvements.

Auto~Star's Star~Link chain management software offers head offices a system to communicate inventory information, sales updates, and promotions with linked stores. Star~Link exceeds standard information packages by enabling managers to ensure consistency of the chain through the use of real-time data processing.

“Our ISV community is alive with innovation, and we're committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft. “Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

“Making our application compatible with Microsoft Windows 7 and Microsoft Windows Server 2008 R2 helps us offer our customers compelling benefits, including intuitive user interfaces, improved security and reliability features, tools to keep them connected to data stored on the Web, full support for multi-core processing, sophisticated management features, and intelligent power management,” said Robert Symmonds, President of Auto~Star.

As a Microsoft Front Runner for Windows® 7 and Windows Server® 2008 R2, Auto~Star can ensure that customers have access to the latest Microsoft technologies.

#### **About Auto~Star Compusystems Inc.**
