

STAR~PLUS ACCOUNTS RECEIVABLE MODULE

Fully Integrated, Real-Time, Automated A/R

If your business extends credit to its customers, or you're thinking of doing so, then you may benefit from Star-Plus Accounts Receivable Module. Automating your A/R functions will help in collecting money more smoothly, quickly, and efficiently.

Advanced reporting tools enable better control over your accounts through easy analysis of late-paying or slow-paying customers, credit management, and enhanced cash flows. Robust reporting and audit trails allow the retailer to personalize their A/R to accommodate specific business requirements and make month-end periods seamless and trouble-free. The A/R Module includes flexible statement printing, user defined credit limits and terms, back office or POS payment handling, and aged statements.

Fully integrated from office functions to POS transactions, Star-Plus A/R Module automates credit authorization, transaction receipt posting, period closing, monthly statement generation, and payment reconciliation.
