

STAR~PLUS GAS PUMP INTEGRATION

Fuel Your Bottom Line!

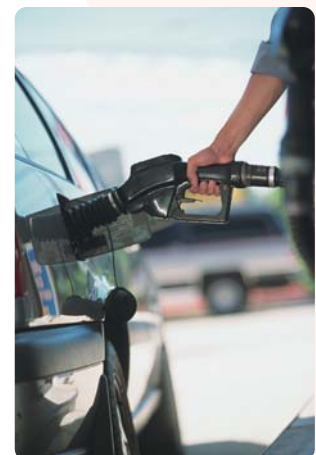

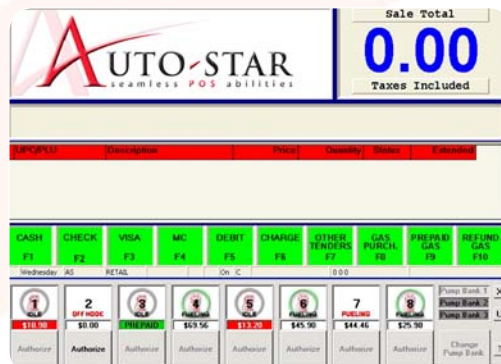

Star~Plus Gas Pump Integration results in faster transactions, reduced errors, and increased efficiency by integrating the gas pump system with the point of sale system. Managers are able to access and control dispensers, offer pre and post pay options, track drive aways, and monitor tank levels and customers with an all-in-one system.

Lower Costs

- Reduce operating costs
 - Reduce errors with an integrated system
 - Accurately report on sales and inventory levels
 - Reduce operating time
 - Lower maintenance and service costs with pay at the pump
- Control Shrinkage
