

STAR~LINK HOSTED SOLUTION

Software-as-a-Service for Star~Link Head Office Solution

Star~Link Hosted Services is a subscription based Software as a Service (SaaS) offering that gives retailers unmatched control and visibility of their business. Grocery, pharmacy and health & nutrition retailers can take advantage of advanced web based reporting, native excel analytics and strong pricing and cost controls while eliminating the need for costly onsite hardware and support staff, allowing for increased focus on core competencies for business growth. It offers the full Star~Link solution to retail chains of all sizes at an affordable price.

Manage Cash Flow

- Pay-as-you-go with a monthly operational expense rather than a large capital investment up front
- More predictable budgeting and planning

Refocus IT Budgets

- Avoid overhead costs associated with implementing conventional software, including purchasing and maintaining servers and equipment
- Allow IT personnel to focus more on competitive advantages rather than infrastructure

Faster Access to the Latest Technology

- Faster deployment time by eliminating many of the standard implementation tasks
- Begin using the latest software version as soon as it is available
- Expand operations without budget and IT constraints
